*We Are Here For You!*

## ASAP Referral Process

- AR 600-85 regulates military referrals to ASAP
- Commanders/Supervisors are required to refer any Soldier who has been involved in a substance-related incident within 5 duty days for an ASAP evaluation.
- Commanders can also refer a Soldier for an ASAP evaluation out of concern of a possible substance-related issue.
- Following Command Referral:
  - Soldier will receive ASAP evaluation
  - Upon completion of evaluation, Commander will be consulted on ASAP recommendations
  - If enrolled, Commander, Soldier and Counselor will meet to discuss treatment timeline and goals
  - Command will be updated throughout process on Soldier's performance
- Point of contact for more information is ...

## DPW Summer Tips

- AIR CONDITIONING POLICY: Specific Dos and Don'ts
- PRIVATELY OWNED OUTDOOR STRUCTURES:
- TRAMPOLINES AT AFH AND UPH:
- WADING POOLS AT AFH AND UPH:

Refer to website for applicable information

[http://home.mannheim.army.mil/sites/directorates/DPW\\_web/Housing.htm](http://home.mannheim.army.mil/sites/directorates/DPW_web/Housing.htm)

### ▪SUMMERTIME GRILLING TIPS:

**Grilling on balconies constitutes a fire hazard and causes smoke problems to upper floors; therefore, it is not permitted at any time**

Residents may grill in areas 30 feet away from any building and in areas that do not constitute a menace to others

After grilling the area in and around gazebos or other grilling areas must be cleaned to remove all trash and debris left from grilling (burned charcoal, ashes)

*We Are Here For You*

## DPW

### Shade/Shelter Structures and Pools

- **Privately-owned shade/shelter structures may be erected in common areas of housing areas under the following conditions:**

Structures may be left in place for 7 consecutive calendar days only. After 7 days the structure must be completely disassembled and stored

Disassembling and re-erecting the structure during or after the 7-day period and re-erecting it a day or so later or moving it to another location is not within the intent of the policy and is not authorized

Due to the lack of gazebos in Area A (Grant Circle), residents are permitted to leave privately-owned structures in common areas of the housing area for more than 7 days

Structures will be properly secured to ensure stability of the structure to preclude injury to anyone in the vicinity of the structure

Grass under the structure will not be covered with mulch, bark, bonestone or any other substances that will damage the grass

Lawn furniture, kiddie pools, toys, grills, etc., will not be left under structures during the 7-day period. These items will be removed and properly stored after each use

The area in and around any structures must be kept clean and free of trash and debris. Shade/shelter structures refer to tents, canopies, umbrellas, awnings and similar structures; common areas refer to open grounds areas in the front, back, sides and between buildings that are shared by all residents

*We Are Here For You*

## DPW

### Summertime Grilling

- **Grilling on balconies constitutes a fire hazard and causes smoke problems to upper floors; therefore, it is not permitted at any time**

Residents may grill in areas 30 feet away from any building and in areas that do not constitute a menace to others

After grilling the area in and around gazebos or other grilling areas must be cleaned to remove all trash and debris left from grilling (burned charcoal, ashes)

Security, policing, sanitation and maintenance of common grounds areas after use are joint responsibilities of all residents

Unused charcoal and lighter fluid must be properly stored after grilling (Do not leave in open areas)

Residents will comply with fire regulations and may be liable for damages to government property caused by violations

Gas grills with fuel bottles may be stored next to buildings and must be emptied before the winter season

*We Are Here For You*

## DPW Air Conditioners

### ➤ Reasons why the A/C policy is being enforced:

Certain kinds of A/C units are not safe – therefore, not allowed.  
Some housing units do not have upgraded electrical systems and cannot take the electrical load.

We have found instances where occupants have used extension cords because the A/C unit is placed too far from an outlet. This is a safety hazard, very dangerous situation that can cause fires.

Occupants install A/C units in ways that overload the electric circuits. This causes breaker switches to turn off and also could cause potential fire damage.

### ➤ Do not connect more than one portable A/C unit without contacting the DPW!

*We Are Here For You*

## DPW Air Conditioners

These types of air conditioning units are prohibited!!!!

*We Are Here For You*

## DPW Air Conditioners

This portable air conditioner is acceptable!!!

*We Are Here For You*

## DPW Air Conditioners

This portable air conditioner is acceptable!!!

*We Are Here For You*

## DPW Air Conditioners

*m. Use of resident-owned window air conditioning units and ceiling fans in existing dwelling units.*

(1) Residents may install their own window A/C units or evaporative coolers, or ceiling fans, where no Government provided units exist subject to the following:

(a) Design criteria authorize air conditioning or evaporative cooling at that installation.

(b) The resident is responsible for cost of placement including electrical work, removal of units, restoration of openings, required inspections, and maintenance of the A/C unit.

(c) Approval of the DPW is obtained before installation of A/C units or electrical work. Completed work will be inspected by the DPW and must meet the requirements established by the DPW.

(d) Maximum electrical load of proposed window units for the DU will be prescribed by the DPW and will not exceed that of a properly sized A/C unit for that DU.

(e) Electrical work will be done only by qualified electricians upon approval of the DPW.

(2) Capacity of the exterior and interior electrical distribution system must be sufficient to carry the added load of the units.

(3) Only low amperage, high efficiency window units should be installed as prescribed by the DPW.

(4) Resident-owned equipment abandoned in place by the resident or accepted by the Government will become Government-owned property. Electrical circuits and outlets installed at resident expense and abandoned in place will become part of the real property. Abandoned window A/C units that are not authorized will not be replaced regardless of source of funds.

AR 420-1 2 November 2007

*We Are Here For You*

## DPW Air Conditioners

1. SELECT A WINDOW FOR YOUR A/C VENT
2. MEASURE OPENING HEIGHT AND WIDTH SO THAT THE PLEXIGLAS OR MASONITE BOARD FITS WELL AGAINST THE SCREEN FRAME.

*We Are Here For You*

## DPW Air Conditioners

3. PURCHASE EITHER PLEXIGLAS OR MASONITE BOARD AND CUT TO MEASURED DIMENSIONS.
4. VERIFY VENT HOSE SIZE FROM AIR CONDITIONING UNIT AND CUT CIRCULAR HOLE TO ALLOW SNUG FIT.

*We Are Here For You*

## DPW Air Conditioners

Please contact the Housing Office if you have questions  
or need advice

DSN 385 - 2611
